SPRINGTIME HOPE!

JUNE 1999

SPRING CLEANING!

That means a visit to the dentist. Twice a year all horses teeth are floated to rasp the sharp edges. If necessary their wolf teeth are removed.

Dr. Michael Stanford is the DENTIST

It takes team work to get a horse to its highest level of fitness with a sound mind and body that is ready to compete successfully. An essential part of this team is the exercise rider. Denise Franklin and Creta Livingston have been riding at Eagle Point for years. Dr. Scott Anderson has compared the situation to

" THE PRINCESS AND THE PEA". Our exercise riders are very in tune to their mounts and they can feel any slight difference in their gaits. Some exercise riders are just along for the ride. Eagle Point Farm is lucky to have
